**Adjustable Top Mount Hinges**

**The Problem**

**An Imperfect Fit**

a **perfect fit** for the imperfect bowl

Hinge size and rubberized pad style may vary by model.

**The Solution**

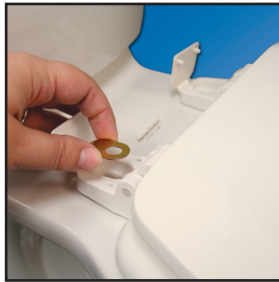

**A Perfect Fit**

Top Mount **Comfort™ Seats** toilet seats will come in two different style hinges:

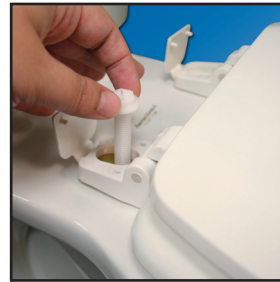

**Hinges With Washers**

**Step 1:** Apply non-skid rubberized pad to the underneath side of each of the seat hinges, then place seat on the toilet bowl.

**Step 2:** Select the appropriate center or concentric corrosion-proof stainless steel washer for each hinge to position seat correctly. Place washer inside hinge top. Discard the remaining 2 unused washers.

**Step 3:** Insert bolt through the hole in the washer and hinge.

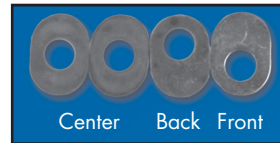

**Step 4:** Screw nut on the bolt underneath the bowl until attached firmly. Do not overtighten.

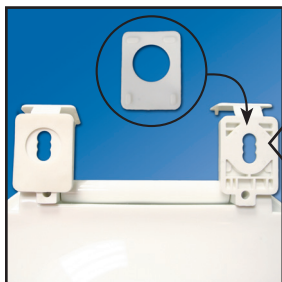

**Step 5:** Snap hinge cover closed to complete installation.

Select Adjustment Washers →

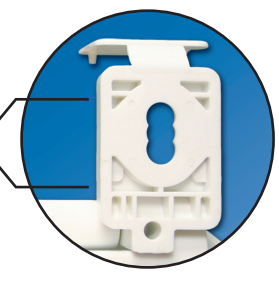

**Hinges Less Washers**

Patent pending on adjustable design.

**Step 1:** Apply non-skid rubberized pad to the underneath side of each of the seat hinges, then place seat on the toilet bowl.

**Step 2:** Insert bolt in the front, middle or back hole on the hinge that allows the seat to fit correctly on the bowl.

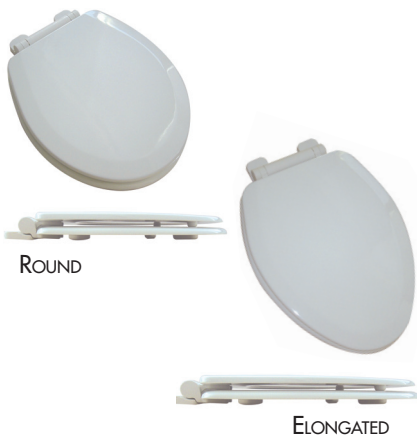

**Step 3:** Screw nut on the bolt underneath the bowl until attached firmly. Do not overtighten.

**Step 4:** Snap hinge cover closed to complete installation.

# MOLDED WOOD

## Deluxe EZ Close™ Molded Wood

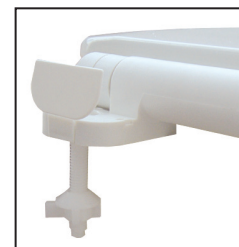

Top mount, closed front, stainless steel screws, four color matched bumpers, corrosion proof self-aligning hardware, heavy duty hinge, prevents slamming of the seat, no pinching fingers, a seat for every member of the family, promotes closing the seat and cover, wood composite made using recycled wood from the furniture industry.

## **Even the most common of products can be Extraordinary.**

Comfort™ Seats has taken the manufacturing of toilet seats to a new level of engineering and design excellence. Combining the elements of old-world craftsmanship with the newest tooling, fabrication and assembly processes available, each Comfort™ Seat is crafted to ensure the highest quality and durability.

Comfort™ Seats manufactures a wide range of products for both Residential and Commercial toilets. Comfort™ Seats are designed to fit and complement products from the leading toilet manufacturers in the world. The most popular color options have also been included to ensure a perfect match with these toilet fixtures and to enhance the décor and style of your bathroom.

Comfort™ Seats meet all North American ANSI Standard requirements. Comfort™ Seats will fit ANSI Standard round front and elongated toilets designed and manufactured by Kohler, American Standard, TOTO, Briggs, Crane, Mansfield, Universal Rundle, Vortens, St. Thomas Creations, Peerless Pottery, Pegasus, Glacier Bay, Cato and most store brands sold for the North American market.
